

# SIDHARTH DHIMAN

## Full Stack Developer

+91-8894240034 · sidharthdhimangurgaon@gmail.com · github.com/sidxdhiman

Gurugram, Haryana, 122001

## WORK EXPERIENCE

### Care Health Insurance

July 2024 - August 2023

### Backend Intern

During my internship at Care Health Insurance, I built a CRUD application using Node.js and TypeScript, incorporating image uploads and encryption. This experience enhanced my skills in backend development, API design, and secure file handling.

## PROJECTS

### Snipster

(Group Project)

Jan 2025-Present

A collaborative platform similar to Stack Overflow, designed for developers to share code snippets, ask questions, and solve programming challenges. It features a reward system that incentivizes contributions, fostering an engaging and knowledge-driven community. Built with a scalable architecture to support seamless collaboration.

### Craaaackle

Dec 2024 - Jan 2025

Craaaackle is a real-time chat application designed for seamless and interactive conversations. It supports instant messaging and media sharing, ensuring a smooth and engaging user experience. Built with a scalable architecture for fast and reliable communication.

### Random Quotes Mobile App

Oct 2024 - Nov 2024

It is an interactive quotes app designed using React Native for inspiration and discovery. It allows users to explore a vast collection of quotes, search by authors, and save their favorites for easy access. Built with a scalable architecture, it delivers fast and efficient quote retrieval, making it a perfect companion for daily motivation.

## EDUCATION

### KR Mangalam University

2022-Present

Bachelor of Technology with Specialization in Full Stack Development

### Sharda International School

2022

Senior Secondary Education
